

The 2nd Swiss Cyber Think Tank (SCTT) was hosted by MELANI and took place at MELANI in Bern. I would like to thank the host for the organization and the commitment to our 2nd Swiss Cyber Think Tank. The motto of this SCTT was “Cyber Risk & Insurability: The National Strategy for Switzerland’s Protection against Cyber-Risks”.

A warm thank you to our presenters Marc Henauer of MELANI and Petra Wildemann of FTI Consulting.

Petra Wildemann presented questions and discussion points concerning IT standards and security as well as the current issues raised by IT Forensic with respect to events and Cat topics for cyber risks. In her discussion, she raised the question of whether cyber clauses are a valid method for evaluating future cyber risks.

Switzerland is one of the countries with a national strategy to protect against cyber risks. Marc Henauer presented the logical framework of the NCS, with security measures for organizational structures. The strategy for cyber resilience is based on different levels, including prevention, reaction and continuity. MELANI has a Reporting and Analysis Center for Information Assurance, which is based on the MELANI Mandate and its Network and Partners, within Switzerland and abroad.

2nd Swiss Cyber Think Tank
