

## 4th Swiss Think Tank

The 4th Swiss Cyber Think Tank (SCTT) was hosted by Kudelski Security and took place at Kudelski Security in Lausanne. I would like to thank the host for the organization and the commitment to our 4<sup>th</sup> Swiss Cyber Think Tank. The motto of this SCTT was “Cyber Risk & Insurability: A Walking Tour through Security Labs”.

A warm thank you to our presenters at Kudelski Security under the lead of Andreas von Ow and Karl Zurbruggen.

“Creating the overarching framework for a cybersecurity program is a complex process. Our cyber advisors are experienced at guiding clients in strategy and governance. Combining industry vertical perspectives, cybersecurity knowledge, and business acumen, our experts provide clear, actionable advice that helps set strategic direction, define metrics, optimize compliance efforts, and support an agile governance structure.”  
(Kudelski’s strategy and governance)

In a variety of presentations and demonstrations of cyber security processes, the audience observed advanced labs and recent innovative developments to protect data against cyber-crimes.

# 4th Swiss Cyber Think Tank

“Cyber Risk & Insurability: A Walking Tour through Security Labs”
